Reinvigoration, fortification and protection for sensitive skin

SENSITIVE SKIN

MUCH MORE THAN A SKINCARE SYSTEM FOR SENSITIVE SKIN!

A roll-neck jumper scratching your neck, a red face just because it's windy outside or maybe a sudden skin reaction to your favourite cream: things can get a little uncomfortable when your skin loses its protective capacity. This commonly results in feelings of tightness, skin redness and rough skin that itches and burns. When the skin barrier is damaged, even healthy skin reacts to specific irritants such as stress and environmental influences – regardless of age or skin type.

Correct treatment for sensitive skin involves **calming skin irritation and stabilising the skin barrier**. SENSITIVE SKIN does both, thanks to two innovative active ingredient complexes made of plant extracts which complement each other perfectly.

The result? Measurably reduced skin sensitivity, a stronger skin barrier, decreased skin redness and considerably more resilient skin.

SENSITIVE SKIN is an innovative skincare system close to conventional medicine and based on powerful active ingredients, even caring for highly sensitive skin prone to couperose, rosacea and neurodermatitis. SENSITIVE SKIN is **completely free of any potential irritants** such as fragrance allergens and colourants. This makes it **suitable for skincare in cancer patients**. After chemotherapy, the skin needs special, hypoallergenic skin care that soothes and strengthens the skin barrier, for optimum recovery from the effects of the treatment.

- No preservatives or parabens
- No declarable fragrance allergens
- No synthetic colourants
- No PEGs
- No alcohol
- No silicone oil
- No paraffins
- No vaseline
- No microcrystalline wax
- No animal ingredients
- No preservative agents according to cosmetics regulations

MILD, SOOTHING AND DEEP

THE PERFECT FACE CLEANSER

Soft Cleansing Mousse

This gentle pH-neutral cleansing mousse with allantoin soothes irritated skin and counteracts skin redness. Its light, airy texture is easy to spread into the skin and gently cleanses sensitive skin without stressing it unnecessarily. For a noticeably clean and supple feel to the skin!

Soft Soothing Tonic

Specially developed for sensitive skin prone to reddening, Soft Soothing Tonic is the perfect final step for deep facial cleansing! This alcohol-free tonic with Sensitive Complex and allantoin soothes skin irritation as it cleanses. The gentle formula also has a clarifying, cooling and wonderfully refreshing effect.

DAILY SKINCARE

FOR SENSITIVE SKIN

Intense Calming Cream

This calming 24-hour nourishing cream protects and nourishes sensitive skin during the day and helps it to regenerate overnight. Its gentle formula with Skin Defense Complex+ strengthens the skin's natural protective barrier, whilst α -bisabolol and allantoin alleviate unpleasant tightness and itching, resulting in a noticeable improvement in skin condition. Saccharide isomerate and hyaluronic acid provide the skin with long-lasting moisture. The skin is soothed, giving it a supple feel.

Intense Calming Serum

Highly sensitive and stressed skin requires special care and attention. Intense Calming Serum with Skin Defense Complex⁺ not only regenerates and strengthens the natural skin barrier, making it more resilient against external irritation, but also provides moisture. Anti-inflammatory active ingredients such as panthenol, allantoin and α -bisabolol soothe irritated skin long-term, relieve redness and leaves skin feeling relaxed.

Comfort Eye Cream

This gentle eye care emulsion has been specially developed for the highly sensitive skin around the eyes that's prone to redness. It's based on a combination of conditioning shea butter, ISIS and Skin Defense Complex⁺, which strengthens the skin barrier, has a regenerative effect and makes the skin more resilient against external irritation. Hyaluronic acid and Saccharide isomerate provide the sensitive area around the eye with revitalising moisture, smoothing dryness lines. Organically produced eyebright visibly reduces dark rings around the eyes, giving the eye area a fresher, smoother and more supple look and feel.

SPECIAL PRODUCTS

Instant Soothing Mask

The fast, effective and long-lasting Instant Soothing Mask: emergency care for irritated skin! The cream mask quickly relieves irritation and tightness, demonstrably alleviates redness and boosts resistance to external irritation. Fucogel® Powder soothes the skin immediately. Skin Defense Complex⁺ boosts this effect, regenerates the skin's barrier function and abates inflammation. Saccharide isomerate provides sensitive skin with intensive moisture.

The result? The skin is immediately relaxed, giving it a noticeably supple feel!

* After 21-day application of the Daily Couperose Serum 88% of subjects confirm that:

- It soothes and calms down the skin
- Reddened and irritated skin is visibly improved

Daily Couperose Serum

This gentle serum has been specifically designed for the needs of skin prone to rosacea. Sensitive Complex⁺ strengthens the skin's capillary system and soothes skin irritation, while the RSC Neutralizer demonstrably counteracts and reduces redness. Highly effective active ingredients such as barrier-strengthening ISIS, anti-inflammatory allantoin and moisture-providing hyaluronic acid noticeably and visibly improve the skin's appearance!

* After 28 days use of Neuro Skin Balm 100% of subjects confirm that:

- The protective barrier of the skin is strengthened
- The skin is protected from external stimuli
- Redness and inflammations are visibly reduced

Neuro Skin Balm

Skin prone to neurodermatitis requires special hypoallergenic treatment. Neuro Skin Balm provides intensive care for skin prone to neurodermitis, calms the skin and alleviates itching. Squawroot extract demonstrably strengthens the skin's barrier function. The combination with Skin Defense Complex⁺ regenerates the skin and stabilises it long term, abating inflammation. Saccharide isomerate und hyaluronic acid provide the skin with revitalising moisture.

YOUR SKIN IS IN GOOD HANDS

OUR SENSITIVE SKIN TREATMENT AT THE SKIN CARE CLINIC

Treat yourself to a really special pampering session for sensitive skin at one of our cosmetics institutes. **Put yourself in the hands of our skin experts and enjoy a really special care ritual: Our Sensitive Skin Treatment!**

Sensitive skin requires very gentle but thorough cleansing. Soft Cleansing Mousse and Soft Soothing Tonic have a really calming effect, gently cleansing the skin. The skin is wonderfully refreshed, preparing it perfectly for the next stages of the treatment.

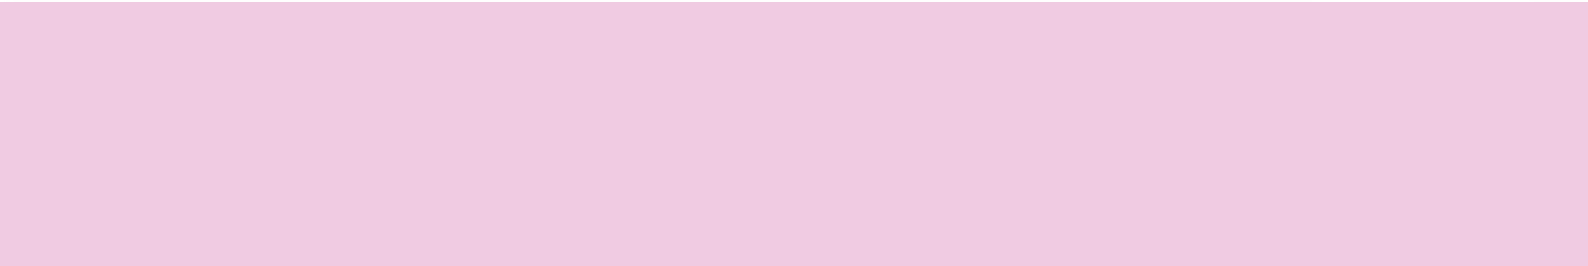

If the condition of the skin allows, this is followed by deep cleansing with an enzyme peeling. Prior to a truly relaxing and reinvigorating massage with Intense Calming Cream, either the active ingredient complex Intense Calming Serum

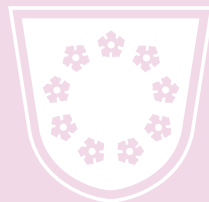

is applied or – depending on the condition of the skin – Couperose Fluid is gently worked into the skin.

After the massage, the rich Instant Soothing Mask quickly soothes acute skin irritation, leaving the skin feeling soft and relaxed.

The Sensitive Skin treatment session ends with the application of gentle Comfort Eye Cream, a UV protector and 24-hour Intense Calming Cream.

Allow us to help restore your skin to perfect health and pamper you. Book your treatment today!
